

**Minutes of the International Commission on Polar Meteorology (ICPM) Meeting,  
IUGG 2007, Perugia, Italy, Friday July 6, 2007.**

**Present:**

Ian Allison, Yoshio Asuma, David Bromwich, Shelley Knuth, Matthew Lazzara, Igor Mokhov, Bill Neff, David Reusch, Michael Town, John Turner.

**Apologies for non attendance:**

Alexander Baklanov, Michiel van den Broeke, Jorge Carrasco, Günther Heinemann, Tom Lachlan-Cope, Viktor Lagun, Amanda Lynch, Kent Moore, Siobhan O'Farrell, Ian Simmonds.

-----

*Members:*

Ian Allison, Andrew Carleton, John King, Mike Pook and Chuck Stearns have withdrawn from ICPM or their term of office has come to an end. Thanks for their service to ICPM.

The new members are:

Neil Adams, Australia  
Cunde Xiao, China  
Shelley Knuth, USA.  
Matthew Lazzara, USA.  
Igor Mokhov, Russia

*New Website address:*

<http://www.icpm-iamas.aq>  
Site maintained by Tom Lachlan-Cope. Thanks, Tom.

*IUGG Perugia:*

- The ICPM Symposium on High Latitudes Modes of Variability (JSM018) that was co-sponsored by ICDM, SCAR, IAHS, IAPSO, and UCCS, was a big success. A total of 30 abstracts were submitted with a total of 21 being presented.
- The ICPM Symposium on Clouds and Radiation and Air-Sea-Ice Interactions (JMS008) that was co-sponsored by IAPSO and SCAR had an interesting range of presentations and one poster. The Symposium successfully brought people from wide range of disciplines together to look at the energy balance over sea ice.

- ICPM partially supported the attendance by Ms. Paola Uribe Raibaudi, Dirección Meteorológica de Chile at IUGG Perugia.

*Proposed ICPM Symposia for IAMAS-IAPSO-UCCS Montreal in July 2009*

<http://www.iamas.org/>:

- Polar regional climate modeling and global impacts. Conveners: William Connolley and Annette Rinke. This is now scheduled as a cross-association symposium with the following details:
 

**Polar regional climate modelling and global relevancy – IAMAS led**  
 IAMAS/IAPSO/IASC co-sponsored by ICCL, ICPM, CLIC, SCAR  
 Conveners: **Annette Rinke (Lead convenor)**, Alfred Wegener Institute, Germany (Annette.Rinke@awi.de), A. Proshutinsky, Döscher, W. Connolley, Dave Holland (IAPSO/IACS)
- Observations of high latitude climate change. Conveners: Matthew Lazzara, Shelley Knuth, Michael Town, and David Reusch. IAPSO and IASC will almost certainly be involved with this symposium.

*Future ICPM Sponsored Meetings:*

- Second Workshop on Recent High Latitude Climate Change, October 22-24, 2007, Pacific Marine Environmental Laboratory, Seattle, Washington. Co-sponsored by Scientific Committee on Antarctic Research (SCAR), Climate and Cryosphere project (CLiC), and ICPM. 20-30 invited attendees expected.
- Workshop on the Supplement to the International Antarctic Forecasters Handbook, 3<sup>rd</sup> Antarctic Meteorological Observational, Modeling and Forecasting Workshop, Madison, Wisconsin, week of June 9, 2008. Co-sponsored by SCAR and ICPM.
- Joint SCAR-IASC (International Arctic Sciences Committee) Open Science Conference. The theme is Polar Research - Arctic and Antarctic Perspectives in the International Polar Year. St. Petersburg, Russia, July 8-11, 2008. Co-sponsored by ICPM. See <http://www.scar.org/events/>. The first circular is due in October 2007.
- The first major international symposium on the scientific results from the International Polar Year will probably be held in Oslo in June 2010. To be co-sponsored by ICPM.
