

# INTERNATIONAL ASSOCIATION OF METEOROLOGY AND ATMOSPHERIC SCIENCES (IAMAS)

of the International Union of Geodesy and Geophysics (IUGG)

Dear Commissions and Members at Large:

We seek nominations for the IAMAS Early Career Medal, to be awarded at the July 2023 Assembly. Below are the nomination procedures for the IAMAS Early Career Medal, which requires a brief (less than 2 page) account of the achievements of the nominated scientist, details of their involvement with IAMAS, a list of their major publications and an assessment of their potential. Early career is defined as a scientist who has earned their highest degree (PhD or equivalent) within the last 10 years prior to May 2022 and is under 40 years of age when nominated.

We ask that all nominations for the IAMAS medal be emailed to Mary Scholes before May 1, 2022. The Bureau will then select the medal winner.

Summary of items needed by May 1, 2022:

- A nomination letter (not to exceed 2 pages)
- 2 additional letters of support
- The nominee's CV (should not exceed 3 single-spaced pages) with an emphasis on his/her scientific work in a research field of IAMAS, his/her contribution to international scientific cooperation, and his/her service contributions
- A list of the most important published scientific works (not to exceed 2 single-spaced pages)

Nominations may only be submitted by the Commission presidents and the Members at Large. Each Commission or Member at Large is limited to 1 nomination.

Submit all nomination packages before May 1, 2022 to:

Mary Scholes ([mary.scholes@wits.ac.za](mailto:mary.scholes@wits.ac.za))

Yours faithfully,

Mary Scholes Vice-President, IAMAS

comprising the

International  
Commission on
